REASONS FOR ALLOWANCE

Claims 1, 3-5, 13, and 14 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1, 4, and 5 are considered patentable because of the inclusion of the claim limitations, the number percentage of a fine powder component of 5 μm or less in the start-up developer is less than or equal to 20.0% and the number percentage of a fine powder component in the replenishing developer is greater than 20.0% and less than or equal to 25.0%. The prior art teaches the claimed number percentages for the fine powder in a start-up developer and a replenishing developer, but does not teach that the fine powder component includes particles of 5 μm or less.

Claims 3, 13, and 14 are considered patentable because of the inclusion of the claim limitations, volume percentage of a fine powder component of 5 μm or less in the start-up developer is less than or equal to 2.0%, and the volume percentage of a fine powder component in the replenishment developer is greater than 2.0% and less than or equal to 5.0%, that is not taught by or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
